Interests

| Cricket | Vollyball | Solving Puzzles |

Swimming

Summary

Proficient Full Stack Web Developer with expertise in building responsive web applications using the MERN Stack. Certified in web development with a Bachelor's degree in Computer Science from Solapur University. Committed to staying current with evolving technologies and excited to contribute to innovative projects.

Training Experience

AlmaBetter | **FEB 2023 - Present**
Web Development Trainee | Banglore(remote)
🔗 AlmaBetter

Skills : MERN Stack, CSS, JavaScript, Redux, DSA, Team Work.

- Proficient in **front-end** and **back-end** languages and tools including **React, Express.js, Node.js, Redux** and **MongoDB**.
- Skilled in building **robust** web applications tailored to modern digital demands.
- Experienced in utilizing the **MERN** stack to develop and deploy fully functional, **responsive** web applications.
- Capable of implementing **authentication mechanisms** and following best practices throughout the **development lifecycle** to ensure high-quality solutions.
- Worked as a **SME** & solved doubts on the Forum

ACADEMIC PROJECTS

Chi-Chat | **Sep 2023**
🔗 Live Demo

- Developed a responsive chatting application deployed with **React** and **Tailwind CSS** for the **frontend**, alongside **Node.js**, **Express.js**, and **MongoDB** for the **backend**.
- Integrated **JWT tokens** for **authentication** and **bcrypt** for password hashing to guarantee secure user data management.
- Enabled real-time communication through **WebSocket** technology for instant messaging capabilities.

React, Tailwind CSS, Node.js, Express.js, MongoDB, WebSocket, JWT tokens, bcrypt

Cryptocurrency Dashboard | **Nov 2023**
🔗 Live Demo

AlmaBetter Verified Project

- Addressed the need for a comprehensive **cryptocurrency tracking** and **analysis** tool by developing a **Cryptocurrency Dashboard** with integrated **exchange functionality**.
- Employed **ReactJS** for **frontend** development, **Tailwind CSS** for flexible and **responsive layouts**, and integrated third-party **Coin Gecko APIs** for **real-time** data retrieval.
- Developed a feature-rich Cryptocurrency Dashboard enabling users to **track, analyze**, and **exchange** various cryptocurrencies through interactive **charts** and **tables**.
- Ensured efficiency through the seamless integration of third-party **APIs**, providing users with **up-to-date cryptocurrency data** and an intuitive user interface for enhanced user experience.

Real-time data visualization, ReactJS, Redux Toolkit, Coin Gecko API, React Charts

Get Youtube Subscribers | **Nov 2023**
🔗 Live Demo

AlmaBetter Verified Project

- Developed a robust **RESTful API** system to manage **YouTube Subscriber** data retrieval efficiently, meeting the need for streamlined access to subscriber information in **JSON** format.
- Leveraged **Node.js** and **Express** for **backend** development, integrating **MongoDB** as the database solution to store and manage subscriber data effectively.
- Crafted RESTful API endpoints to support multiple functionalities:
  - Facilitated retrieval of all subscriber data.
  - Enabled access to subscriber names and subscribed channels.
  - Implemented fetching of detailed subscriber information by ID, encompassing name, subscribed channel, and subscription date.

RESTful API, JSON format, Node.js, Express, MongoDB, Backend development
